- 1) Multi-Family (MF) residential dwelling units with individual water and sewer services.
- 2) Single-Family (SF) residential dwelling units with individual water and sewer services.
- 3) Commercial Projects are defined in the current System Specifications.
- 4) The base fee covers the first 25 drainage fixture units (minimum charge).
- 5) Commercial Properties should reference the Water and Sewer Service Line Sizing Worksheets in the Commercial Tap Application to calculate final service line sizes and drainage fixture units (DFU's).
- 6) Equipment Fees for Commercial Properties vary per meter size, supplier prices, and other requirements. Equipment fees will be determined as part of the tap application review and prior to issuance of permit.
